CVE Request Web Form Tip Sheet

Complete a "CVE Request" web form to request a CVE ID from MITRE.

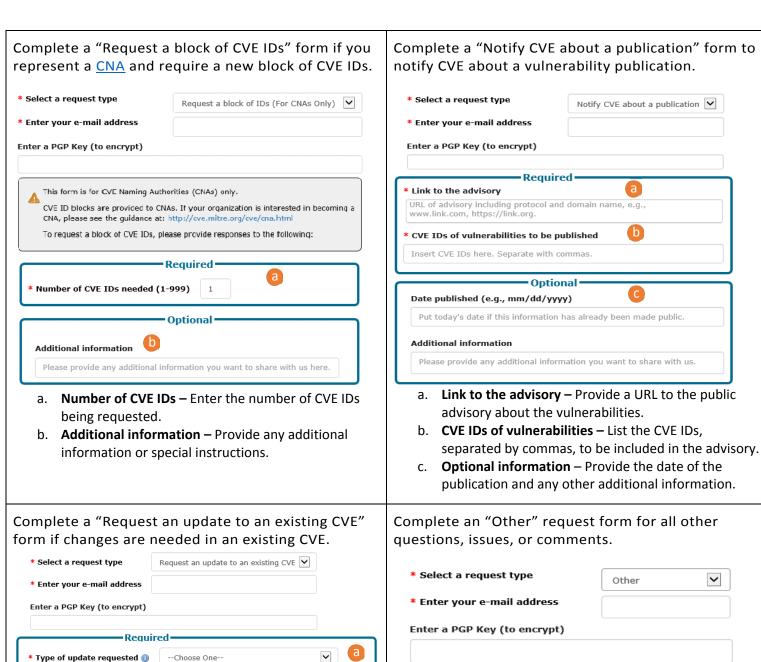

- a. Request Type Select the Request Type. The web form fields are tailored to each Request Type. This example is for the "Request a CVE ID" request type.
- b. Number of vulnerabilities Enter the number of vulnerabilities. A set of fields is provided for information about each vulnerability.
- c. **Verification** Select check boxes to verify the information.

Note: The round, blue icon containing the letter "i" provides additional information about specific fields.

- d. **Vulnerability Type** Select vulnerability type from the dropdown list.
- e. **Required data fields** Enter information into the required fields, indicated by asterisks.

- f. Additional information –
 Additional information about the vulnerability or about the request can be provided.
- g. Terms of Use Review the CVE Terms of Use prior to entering the security code and submitting the form.
- h. Submit Once you have completed filling out all information, enter the security code and submit the form.

* CVE ID to be updated

Insert CVE ID here. If the issue involves multiple, related CVE IDs, separate with a comma

Please include one reference/URL per line including protocol and domain name,

requested from the drop-down list.

update is being requested.

change is needed.
